AI USE DECLARATION FORM

To be submitted together with the Report

WHY THIS FORM IS NEEDED

Using AI tools (like ChatGPT, Claude, Gemini, or Grammarly) is allowed, but it must be disclosed. This form asks you to state clearly how AI helped you, so your work stays honest and clear for your instructor.

Student Information

Name: Jesie P. Flores

Group /Section: Team SPONTY

Title(s): Sponty CSWI – Integration Showcase Report

Date: 10/24/2026

Part 1: How AI Was Used

Fill in one row for each AI tool you used. Add more rows if needed.

AI Tool Used	Purpose of Use	Section(s) Applied	Sample Prompt (short)
ChatGPT	Helped draft and organize the project documentation; review and personalize the output	Task 6 and Task 7 documentation, readme.md and setup.md	Help me draft a simple and understandble project documentation from this repository.

Part 2: Estimated AI Assistance

Choose the option that best describes how much AI helped with your written output:

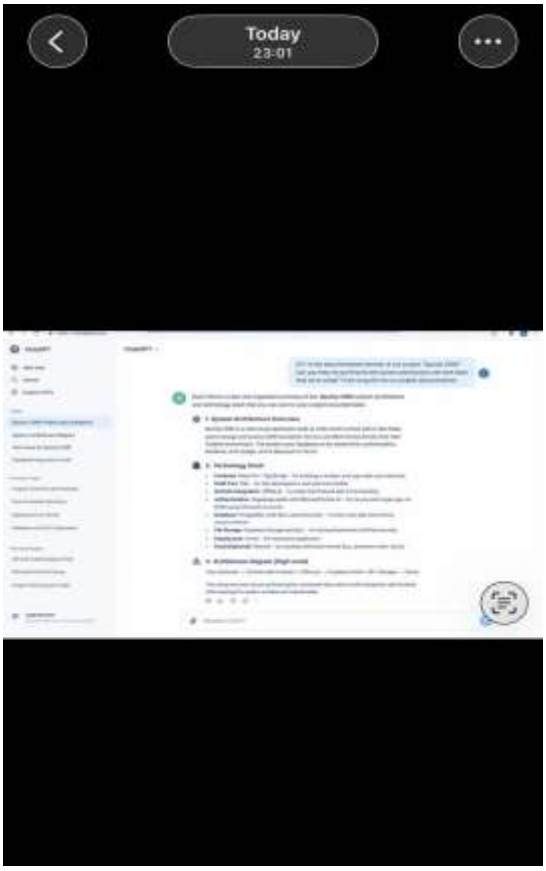

☐ Little help (idea checking, grammar checking only)

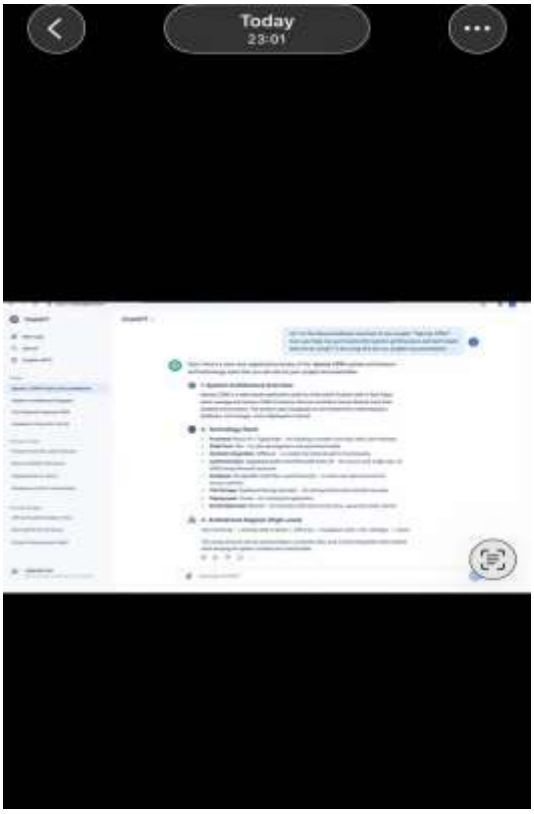

☐ Some help (AI helped organize or word some parts, but ideas are ours)

☐ Heavy help (AI wrote large parts of the text, then we edited it).

PROOF TO ATTACH

Attach a copy or link of your AI chat (screenshot or shared link) as proof of your prompts and the AI'S answer. This is the clearest and most honest proof you can give.

Part 3: Declaration

I/We declare that the information above is true and complete. I/We understand that the final ideas, decisions, and writing of this concept paper remain our own responsibility, and that AI was used only as a support tool, not as a replacement for our own thinking and work.

Where to Get an AI Usage Report

Students may use the following to support their declaration. The AI chat transcript itself is the best

proof. The tools below are optional extra checks.

1. Your Own AI Chat Transcript (Best Proof)

• ChatGPT, Claude, and Gemini all let you share a conversation as a link, or export/print it as a PDF.

• This shows your exact prompts and the AI's exact answers — the clearest and most honest proof.

2. AI Detection / Writing Report Tools (Optional, Free Options)

• GPTZero (gptzero.me) — free basic report, made for students and teachers, shows an AI-likelihood score.

• Copyleaks — has a free trial, gives a report showing which parts may be AI-written.

• QuillBot AI Detector — free and simple, gives a quick percentage score.]

NOTE

AI detection scores are not always 100% accurate. They are only a support tool. Your own saved AI chat transcript is still the strongest and most reliable proof.
